In the commercial sector, understanding our clients' needs and how best to meet them is critical. Office environments often require highly sophisticated electrical systems - and they need to perform, day-in, day-out.

There's the easy way or the intelligent way. At SEE-plc, we're always striving to provide the most appropriate, effective solutions to meet our clients' needs, and to achieve them on time and on budget. We're active in the financial, IT, legal and public sectors, fitting-out, refurbishing, managing and maintaining large, highly complex

We are fully conversant with HTM82 and other local and national regulations.

Guys Hospital

SEE have worked extensively in Guy's and St Thomas's Hospitals where installations have included:

- Electrical systems.
- 3 Endoscopy Units
- Dental Unit
- Ward Refurbishments
- Office Refurbishments
