When your property requires a call out for an emergency repair, or you need some minor works attended to, you need expert assistance you can trust. As the Building Services Division of South Eastern Electrical PLC, South Eastern Services (SES) are the trusted people to call.

SES offer a reactive property maintenance service and our teams of multi-skilled engineers and tradesmen are on call 24 hours a day, seven days a week.

By offering a single point of contact for all maintenance requirements, SES guarantee a consistently high level of service at a competitive rate – whatever the property type or location, or whatever the building defect or emergency repair needed.

We pride ourselves on giving our customers complete peace of mind. To achieve this SES ensure that when our staff visit your site they do it with the focus on “doing it right first time”.

**SES believes in building and developing long term relationships with our customers. Our engineers work to the same ethos.**

# SES- Complete Building Services

In addition to our emergency reactive service, we also offer a minor to medium size project facility to all clients.

This service may be a follow up to minor works or 'as and when' requested by the clients individual needs.

Whatever the requirement. SES will always deliver a fast and cost effective solution.

**Our project teams are experts at delivery of the following project works:-**

- **Pre-shop fitting renovations.**
- **Office remodeling**
- **Site clearance**
- **Store remodeling**
- **General dilapidation repairs.**
- **Local Authority Statutory Works**
- **FRA Project works**
- **DDA up grades**
- **External works**
- **M&E Installations and upgrades**
